International application No.

INTERNATIONAL SEARCH REPORT

PCT/EP2005/002472

Box No. IV Text of the abstract (Continuation of item 5 of the first sheet)

An arrangement comprising an open-ended container (2) and closure (10) therefor, wherein the container comprises at least one projection(6) extending at least partially around its outer surface adjacent the rim (4) of its open, upper end, and wherein the closure comprises a cover for extending over the open upper end and a skirt depending therefrom having an upper (18) and a lower portion (20), whereby, the lower portion of the skirt may be flipped between a raised configuration for mounting and removal of the cover on the container and a lowered configuration in which it engages with the projection of the container thereby to retain the cover on the container, and wherein the lower portion of the skirt is divided into at least two discrete peripheral sections that may be flipped between the raised and lowered configurations independently of each other.

FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

Continuation of Box II.2

Claims Nos.: 9

The subject matter of claim 9 is defined by reference to the description and drawings which is not allowed by the PCT (see Rule 6.2 PCT). The claims do not define any clear structural features or limitations. Consequently, the scope of the claim is not clear (see Article 6 PCT) and meaninful search is not possible (see Article 17 PCT).

The applicant's attention is drawn to the fact that claims relating to inventions in respect of which no international search report has been established need not be the subject of an international preliminary examination (Rule 66.1(e) PCT). The applicant is advised that the EPO policy when acting as an International Preliminary Examining Authority is normally not to carry out a preliminary examination on matter which has not been searched. This is the case irrespective of whether or not the claims are amended following receipt of the search report or during any Chapter II procedure. If the application proceeds into the regional phase before the EPO, the applicant is reminded that a search may be carried out during examination before the EPO (see EPO Guideline C-VI, 8.5), should the problems which led to the Article 17(2) declaration be overcome.

INTERNATIONAL SEARCH REPORT

International application No. PCT/EP2005/002472

Box II Observations where certain claims we	re found unsearchable (Continuation of item 2 of first sheet)
This International Search Report has not been establish	ned in respect of certain claims under Article 17(2)(a) for the following reasons:
Claims Nos.: because they relate to subject matter not require.	lred to be searched by this Authority, namely.
	The state of the s
2. X Claims Nos.: 9 because they relate to parts of the International Sea	Application that do not comply with the prescribed requirements to such
see FURTHER INFORMATION she	
3. Claims Nos.: because they are dependent claims and are no	of drafted in accordance with the second and third sentences of Rule 6.4(a).
Box III Observations where unity of invention	is lacking (Continuation of item 3 of first sheet)
This International Searching Authority found multiple inv	rentions in this international application, as follows:
1. As all required additional search fees were times searchable claims.	ely paid by the applicant, this International Search Report covers all
2. As all searchable claims could be searched with of any additional fee.	thout effort justifying an additional fee, this Authority dld not invite payment
3. As only some of the required additional search covers only those claims for which fees were p	fees were timely paid by the applicant, this International Search Report paid, specifically claims Nos.:
4. No required additional search fees were timely restricted to the invention first mentioned in the	paid by the applicant. Consequently, this international Search Report is claims; it is covered by claims Nos.:
	- ording project by ordinary from
Remark on Protest	The additional search fees were accompanied by the applicant's protest.
	No protest accompanied the payment of additional search fees.
